

Interactive Elements

Hamburger Menu	Read More/ Read Less Button	Navigation Sub-menu Dropdown	Tabbed Content (with API)
----------------	--------------------------------	------------------------------	---------------------------

Hamburger Menu

Location: All pages

Description: On devices smaller than 1024px (iPad Pro size), this menu will appear automatically as the main navigation menu. To view menu items, users must click the hamburger icon. Menu items are styled in full width kelly green to stand out and provide an elegant user experience.

Read More/Read Less Button

Location: What We Do page

Description: To minimize page space occupied by Executive Director and Founder and Deputy Director bios, some content will be hidden by default. However, it can be accessed easily by clicking the Read More/Read Less button, with respective button labels. When users land on the page, half of the content will show by default. Once clicked, the Read More/Read Less button will reveal the remaining half seamlessly with the initial content.

Navigation Sub-menu Dropdown

Location: Volunteer page

Description: To provide access to additional volunteer information, a sub-menu is available below the main navigation. There are two menu items presently — Qualifications and Leaders. To access the dropdown for each item on desktop, users simply hover over the menu item and dropdown items will appear. To do so on mobile, the menu items must be clicked.

Tabbed Content (with API)

Location: Volunteer page

Description: To view volunteer opportunities, users simply observe tab menus for available options, clicking the tab so corresponding content appears. This layout allows more information to be available above the fold without overwhelming users. The tabbed content layout also provided an opportunity to promote our sponsor, Chuck Norris’ message to users in a popular location. An API generating a random Chuck Norris joke is also included. The sponsor tab is on the far right, and volunteer content is grouped together on the left.
